

CareCloud and ChartLogic deliver a single, integrated solution for practices looking to save time, boost profitability and improve patient outcomes.

ChartLogic's EMR captures the clinical encounter electronically with a tool you've been using all along—your voice, making charting more efficient than ever. When combined with CareCloud Central's intuitive design, insightful analytics, and user-friendly billing apps, providers are empowered with a complete, cloud-based solution for their practice.

CREATE NOTES IN <90 SECONDS

BUILT AROUND THE POWER OF YOUR VOICE

Superior command and control voice navigation and highly accurate speech recognition for more efficient charting from day one.

CUSTOMIZABLE FEATURES

Templates and modules designed for your specialty and practice needs. Use your existing templates or build a new one.

FASTER NOTES EQUAL MORE PATIENTS

Everything from medical history to diagnosis codes can be accessed from one screen, making it easy for you to complete a comprehensive note without getting lost in forms and files.

COMPLETE REVENUE CYCLE MANAGEMENT

BOOST PROFITABILITY

Powerful billing software and seasoned RCM experts help you optimize your revenue cycle from start to finish.

ELIMINATE ADMINISTRATIVE BURDENS

CareCloud's team handles your revenue cycle heavy lifting to ensure you get paid properly and promptly.

ADAPT BETTER TO INDUSTRY CHANGE

Your designated client manager provides insights and guidance to ease external pressure on your practice.
